❖ SECTION-B

❖ **Read the extracts and answer the questions:** [06]

He studied in his mother tongue, Gujarati, and later joined NirmaUniversity, Ahmedabad for his BE in computer engineering. He went on to complete his post-graduation (industrial design) from IIT-Mumbai, which earned him a job with Microsoft in Hyderabad and a president's award from APJ Abdul Kalam.

13. Where did Pranav get his BE degree?

14. From whom did Pranav get award?

Automated Fabrication or 'autofab' is a set of technologies that automate the process for building three dimensional solid objects from raw materials. This industry uses solidification of polymers, powders and other raw materials, guided by designs drawn on ordinary computers. Now it will be possible for human beings to acquire powers to manipulate the properties of matter.

15. Which materials does the industry use to make a product?

16. What is the full form of 'Autofab'?

Pranav Mistry, a native of Palanpur, North Gujarat showcased the impossibly futuristic watch "Gear" to the world. Mistry is the head of Think Tank Team, Samsung Research America, who has designed the 'digital' watch that lets you check messages with a glance or make conversation 007 style.

17. Where does Pranav belong to?

18. What are the functions of the futuristic watch "Gear"?

SECTION -C

❖ **Read the following stanza and answer the questions:** [03]

We were taken from the ore-bed and the mine,
We were melted in the furnace and the pit-
We were cast and wrought and hammered to design,
We were cut and filed and tooled and gauged to fit.

19. From where were the machines taken?

20. What were done to design a machine?

21. Give two rhyming words from the stanza.

❖ **Read the extracts and answer the questions:** [04]

The snakes were indignant (annoyed) and they bit the flamingoes. Their bodies and legs were itching and got hot so they ran to the lake. Since that day they don't go out of the lake because only the water can calm the pain caused by the bites, which left their legs red and their feathers pink like summer dusk.

This is an Argentinian folk tale. But what does science say? Young flamingoes hatch with grey feathers but adults range from light pink to bright red due to bacteria and carotene (a red or orange substance found in carrots and other plants) obtained from their food supply.

22. How were the snakes? What did they do?

23. Where did Flamingo go after snakes' bite?

24. Why do the Flamingoes not go out of the lake?

25. What does the science say about young flamingo?
